

ProPlus

Designed as a high quality, cost effective tank monitoring system

Veeder-Root's ProPlus Monitoring System is designed to provide a comprehensive cost-effective compliance and monitoring solution for tanks and containment areas. ProPlus systems come as pre-configured kits for easy ordering to meet regulatory compliance requirements at your site.

Standard Features

- Reliable and precise inventory measurement managing up to four magnetostrictive probes
- Choice of either static or continuous in-tank testing leak detection (CSLD); both methods are third-party certified against EPA leak detection protocols for static in-tank leak detection and continuous in-tank leak detection system (CITLDS) protocol
- Sensor inputs, which support up to 8 interstitial and/or containment sensors
- Two built-in outputs, which provide for positive shutdown on leak conditions and/or overfill alarm notification through external devices
- RS-232 communication interface with Auxiliary Port provides two 25-pin D-connectors for data transmission to computers or point-of-sale terminals
- Reliable integral printer, which provides fast, quiet printouts to support compliance and inventory reporting capabilities

Optional Features

- SiteFax or Ethernet communication modules allow the ProPlus to automatically transmit information at user-defined intervals or when certain events occur. Both the SiteFax and Ethernet module are fully compatible with Inform remote communication software
- Wide selection of containment monitoring sensors to ensure regulatory compliance
Choose from:
 - interstitial sensors for either steel or fiberglass tanks
 - sump sensors
 - hydrostatic sensors
 - discriminating dispenser pan sensors and containment sump sensors
- Remote over-fill alarm with acknowledgement switch
- Mag Plus probes for "alternative fluids" or "inventory only" applications
- 2" Float kits available for narrow riser pipe

Technology that simplifies inventory management and saves valuable time

2 Tank / Line ProPlus Kit

Part Number:

RJ PP2 (S or C)*

Description:

ProPlus console with integral printer, eight sensor input interface, (2) two standard length Mag Plus probes with 4" floats and Probe Riser Caps

3 Tank / Line ProPlus Kit

Part Number:

RJ PP3 (S or C)*

Description:

ProPlus console with integral printer, eight sensor input interface, (3) three standard length Mag Plus probes with 4" floats and Probe Riser Caps

4 Tank / Line ProPlus Kit

Part Number:

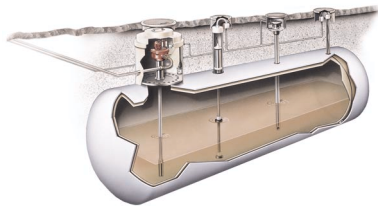

RJ PP4 (S or C)*

Description:

ProPlus console with integral printer, eight sensor input interface, (4) four standard length Mag Plus probes with 4" floats and Probe Riser Caps

* Choose (S) Static or (C) Continuous In-Tank Testing

When ordering please specify Mag Plus Probe part numbers and installation kits listed. For Sensors, SiteFax/Ethernet modules and other optional accessories, please specify referenced part numbers listed.

Mag Plus Probe Part Numbers:

Mag1 Leak Detection and Inventory Only Probes

Part Number	Description
84639X-X99	Custom Length Probes*
84639X-X01	Tank I.D. 4'
84639X-X02	Tank I.D. 5'
84639X-X03	Tank I.D. 5'4"
84639X-X04	Tank I.D. 6'
84639X-X05	Tank I.D. 7'
84639X-X06	Tank I.D. 7'6"
84639X-X07	Tank I.D. 8'
84639X-X08	Tank I.D. 9'
84639X-X09	Tank I.D. 10'
84639X-X10	Tank I.D. 10'6"
84639X-X11	Tank I.D. 11'
84639X-X12	Tank I.D. 12'
84639X-X13	Tank I.D. 2.0M
84639X-X14	Tank I.D. 2.5M
84639X-X15	Tank I.D. 2.667M
84639X-X16	Tank I.D. 3.0M

* Available in whole one inch increments from 24" to 144".

ProPlus Options:

Containment Sensors & Accessories

Part Number	Description
794380-208	Sump Sensor – 12 ft. cable
794380-209	Sump Sensor – 30 ft. cable
794380-301	Single-Point Hydrostatic Sensor
794380-303	Dual-Point Hydrostatic Sensor
794380-322	Discriminating Dispenser Pan Sensor
794380-352	Discriminating Containment Sump Sensor
330020-012	Universal Sensor Mounting Kit – contains a variety of mounting brackets for proper installation of dispenser pan and containment sensors

Interstitial Sensors

Part Number	Description
794390-40X	Interstitial Sensor for Fiberglass Tanks
794390-420	Interstitial Sensor for Steel Tanks (4' to 12' tank I.D.) – 16 ft. cable
794390-460	Interstitial Sensor for Steel Tanks (4' to 12' tank I.D.) – 30 ft. cable
794380-301	Single-float Hydrostatic Sensor
794380-303	Dual-float Hydrostatic Sensor
312020-928	2" Interstitial Sensor Riser Cap and Adapter Kit

Other Optional Accessories

Part Number	Description
330149-001	SiteFax Modem Interface Module
330020-424	Ethernet TCP/IP Interface Module
790091-001	Overfill Alarm
790095-001	Overfill Alarm Acknowledgement Switch
848940-00X	Inform Communications Software for Remote Polling

Mag Plus Probe Installation Kits

Cable Length	Product Type	4" Float Kit Part Number	2" Float Kit Part Number
5'	Gasoline	846400-000	846400-100
5'	Diesel	846400-001	846400-101
5'	Light Oil	846400-002	846400-102
5'	Alternative Fluids	846400-004	846400-104
10'	Gasoline	846400-010	846400-110
10'	Diesel	846400-011	846400-111
10'	Light Oil	846400-012	846400-112
10'	Alternative Fluids	846400-014	846400-114

Please refer to the Veeder-Root Price List for required probe and sensor lengths and corresponding 3-digit Form Number suffix.
